HOW TO PLAY BACCARAT

The version of Baccarat played is sometimes known as 'Mini Baccarat', and is played on a smaller table.

There are only two hands in Baccarat- the Banker's and the Player's. There are no individual hands for Players. These "community hands" are the focus for all Players. You are therefore not playing against the other Players or the House, you are simply betting against the cards.

In Baccarat, the highest count possible is nine. Tens, picture cards and multiples of ten are counted as zero. Aces are counted as one. All cards from two to nine are counted at face value. The aim of the game is to bet on the hand that you believe will total closest to nine.

To play the game of Baccarat you only need to consider, whether to back the Player or the Banker to win, or to opt for a "tie".

HOW THE HANDS ARE PLAYED

To commence the game, all Players place their bets on the Player's hand, the Banker's hand, or tie bet. You may also choose to bet on both Player or Banker and a tie. Once the bets are placed, two cards are dealt to both the Player's and the Banker's hands.

If a hand's first two cards total eight or nine, it is considered a "natural" and no more cards are dealt. A third and final card may be dealt, depending on the combined value of the first two cards. Third cards are dealt first to the Player's hand then to the Banker's hand.

Both the Banker's and Player's hands must draw or stand according to these fixed rules. There are no options regarding drawing the third card for either the Banker's or the Player's hand.

WINNING BET PAYOUTS

Winning bets placed on the Player's hand are paid even money. Winning bets placed on the Banker's hand are paid even money, less a 5% House commission. You may also bet that the result will be a draw or "tie". When a tie results, tie bets are paid eight to one; other bets neither win nor lose.

NO COMMISSION BACCARAT

No commission Baccarat is a variation of the game of Baccarat which makes the game faster to play. All winning hands are paid even money with the exception of when the Banker wins with a point count of six. Bets are then paid at odds of 1 to 2. You may also bet that the result will be a draw or "tie". When a tie results, tie bets are paid 8 to 1; other bets neither win nor lose.
